

RUI (RACHEL) HU

Application Support Analyst | API Troubleshooting & Incident Support | AWS Certified

Calgary, AB • 587-836-9310 • hurui.lcy@gmail.com • GitHub: github.com/rachel-lcy

Portfolio: portfolio-five-rho-81.vercel.app

PROFESSIONAL SUMMARY

Application Support-focused professional with experience supporting web applications and resolving production issues across APIs, cloud systems, and data layers.

Skilled in incident management, root cause analysis (RCA), and troubleshooting issues such as API failures, environment mismatches, and system inconsistencies. Strong technical foundation in AWS, SQL, and application debugging.

Experienced in collaborating with engineering and business teams to resolve incidents, improve system reliability, and maintain consistent user experience.

CERTIFICATIONS

ITIL 4 Foundation — Certified (Incident, SLA, Service Management)

AWS Certified Cloud Practitioner (CLF-C02)

AWS Certified AI Practitioner

AWS Solutions Architect – Associate (SAA-C03) — In Progress

Meta Front-End Developer Professional Certificate (Coursera)

TECHNICAL SKILLS

Application Support & Incident Management

Incident Lifecycle, SLA Performance, Change Management, Ticketing Systems (Jira Service Management, ServiceNow - basic), Escalation Handling

Monitoring & Production Support

CloudWatch, Application Logs, System Monitoring, Incident Detection, Root Cause Investigation

Troubleshooting & Debugging

API Debugging (Postman), REST/JSON Testing, Web Application Debugging (React/JS), Environment Configuration, Release Validation

Cloud & Infrastructure

AWS (EC2, S3, Lambda, IAM, Bedrock, API Gateway), Vercel, Environment Variable Management, Credential Security

Data & Integration

SQL (PostgreSQL, MongoDB), Data Validation, Query Debugging

Identity & Access (Supporting)

Access Control Concepts, Authentication Troubleshooting, Microsoft 365 (basic), Entra ID (fundamentals)

Tools & Platforms

Git, GitHub, Figma

PROJECTS

AI Resume Analyzer Platform | Cloud - Integrated Production System Support — AWS

Bedrock · Next.js · Server-side APIs · Vercel – 2025 – Present

Live demo: portfolio-five-rho-81.vercel.app

- Provided production support for a live cloud-based application, ensuring system stability and resolving user-impacting incidents
- Restored system connectivity during API integration failure by diagnosing environment misconfigurations, preventing recurrence
- Performed root cause analysis on Node.js runtime issues (pdfjs-dist) using log analysis
- Investigated and resolved environment-specific issues between local and production systems (Vercel), improving system stability and deployment reliability
- Implemented API access control using access code verification and session-based authentication, preventing unauthorized Bedrock API usage and reducing cloud costs
- Improved data extraction accuracy by 25% for complex document layouts through testing and optimization
- Handled multiple issues in a production-like environment, prioritizing and resolving problems efficiently

WORK EXPERIENCE

Product & Operations Analyst – Web Platforms

Shenzhen Skywise Technology Co., Ltd. | Aug 2019 – Mar 2023 | Shenzhen, China

- Acted as primary contact for user-reported issues, diagnosing and coordinating resolution with engineering teams
- Investigated and resolved application issues including API failures and system inconsistencies in collaboration with engineering teams
- Supported system deployments by performing release validation and smoke testing prior to production release
- Performed root cause analysis using system behavior and user data to identify and resolve recurring issues
- Translated user-reported problems into technical requirements to improve issue resolution efficiency
- Created support documentation and onboarding materials to reduce repeat incidents and improve user adoption

EDUCATION

Diploma in Interactive Design – Web Design and Development

SAIT (Southern Alberta Institute of Technology) | Calgary, AB | Jan 2024 – Aug 2025

Relevant coursework: Web Application Development, Database Programming, UI/UX, Web Security Fundamentals
