

RUI (RACHEL) HU

IT Support Specialist | Desktop Support Technician

Microsoft 365 & Active Directory & Endpoint Management · [Portfolio](#) · [IT Knowledge Base](#) · [Enterprise IT Lab](#)
Calgary, AB · 587-836-9310 · hurui.lcy@gmail.com

PROFESSIONAL SUMMARY

ITIL® 4 Foundation certified IT Support Specialist with hands-on experience supporting Windows Server, Active Directory, Microsoft 365, Microsoft Intune, and Entra ID environments through professional IT Support experience and a structured enterprise IT home lab.

Skilled in troubleshooting endpoint, identity, Microsoft 365, and Windows infrastructure issues while delivering structured incident resolution and technical documentation. Demonstrated strong customer communication, incident management, and technical documentation skills while supporting enterprise environments. Passionate about continuous learning and enterprise technologies, with a strong interest in Microsoft 365, endpoint management, and IT infrastructure.

TECHNICAL SKILLS

Systems Administration

Windows Server 2022 • Active Directory (AD DS) • OU Management • Group Policy (GPO) • User & Group Administration • Remote Desktop Services (RDP) • Windows 10/11 Administration

Microsoft 365 & Endpoint Management

Microsoft 365 Administration (Outlook • Teams • SharePoint • Exchange Online) • Microsoft Intune • Microsoft Entra ID (Azure AD) • Device Enrollment • Compliance Policies • Configuration Profiles • Windows Update Rings • Endpoint Security • Conditional Access • User Provisioning • MFA

Networking

TCP/IP • DNS • DHCP • IP Configuration • VPN Fundamentals • Subnetting • Network Connectivity Troubleshooting

Endpoint Support

Windows 10/11 Administration • macOS • Hardware Troubleshooting • Software Installation & Configuration • Remote User Support

Automation & Scripting

PowerShell • Active Directory Administration • Microsoft Intune Administration • Administrative Automation

IT Service Management

ITIL 4 Foundation • Incident Management • Root Cause Analysis (RCA) • SLA Awareness • Escalation Handling • Ticket Documentation

Tools

Microsoft Intune Admin Center • Microsoft 365 Admin Center • VMware Workstation Pro • ServiceNow (Basic) • Jira Service Management • Postman • Git • AWS CloudWatch

ENTERPRISE IT LAB EXPERIENCE

Enterprise Windows Infrastructure Lab · Windows Server 2022 · Active Directory · Microsoft 365 · Microsoft Entra ID · Microsoft Intune · VMware

Documentation: [Enterprise IT Infrastructure Home Lab](#)

2026 – Present

Designed, deployed, and maintained an enterprise-style Windows infrastructure environment to simulate real-world IT administration, Microsoft 365 endpoint management, identity services, and enterprise troubleshooting. Published public documentation and troubleshooting guides through an IT Knowledge Base.

- Installed and administered Windows Server 2022, Active Directory, Group Policy, DNS, DHCP, and Windows domain services.
- Configured Microsoft 365, Microsoft Entra ID, and Microsoft Intune, including device enrollment, compliance policies, configuration profiles, endpoint security, and Windows Update Rings.

- Managed user provisioning, group management, MFA, Conditional Access, NTFS permissions and Remote Desktop administration.
- Developed PowerShell-based administration workflows to automate Active Directory management, generate system reports, investigate Windows event logs, troubleshoot network connectivity, and support routine enterprise administration tasks.
- Published enterprise SOPs, troubleshooting guides, verification checklists, and technical documentation across 18 structured IT labs, published as a public IT Knowledge Base.

PROFESSIONAL EXPERIENCE

Product & Operations Analyst – Web Platforms · Shenzhen Skywise Technology Co., Ltd. *Aug 2019 – Mar 2023 · Shenzhen, China*

- Served as the primary point of contact for customer-reported technical issues, triaging, reproducing, and escalating incidents to development and QA teams
- Investigated application incidents including login/access failures, UI errors, and API failures; produced structured root cause analysis reports
- Managed the full issue resolution lifecycle: user report → triage → RCA → fix validation → release confirmation and user communication
- Maintained issue tracking records, troubleshooting documentation, and knowledge base articles.
- Maintained detailed issue tracking, troubleshooting documentation, and resolution records
- Translated technical findings into clear communication for non-technical users and stakeholders

TECHNICAL TROUBLESHOOTING PROJECT

AI Resume Analyzer Platform · AWS Bedrock · Next.js · Vercel

2025 – Present

Live: portfolio-five-rho-81.vercel.app | Role: Technical Support & System Maintenance

- Diagnosed an AWS Bedrock API integration failure caused by an environment variable formatting issue, restoring AI functionality after identifying a trailing whitespace in the model ID configuration.
- Performed structured root cause analysis (RCA) using CloudWatch logs, browser DevTools, and runtime validation to isolate configuration issues from application logic.
- Investigated production environment inconsistencies, validated deployment configurations, and implemented preventive improvements to reduce recurring incidents.
- Documented the complete troubleshooting process as a public troubleshooting case study demonstrating incident investigation and enterprise documentation practices.

CERTIFICATIONS

- ITIL® 4 Foundation — Incident Management, SLA, Service Lifecycle
- AWS Certified Cloud Practitioner (CLF-C02)
- AWS Certified AI Practitioner
- Meta Front-End Developer Professional Certificate (Coursera)
- AWS Solutions Architect – Associate (SAA-C03) (*Expected 2026*)

EDUCATION

Diploma in Interactive Design – Web Design & Development · SAIT (Southern Alberta Institute of Technology) · Calgary, AB *2024 – 2025*

LANGUAGES

- English — Professional Working Proficiency
- Mandarin Chinese — Native Proficiency
