IT SUPPORT SNAPSHOT

- ✓ 4 years of customer-facing experience investigating issues and supporting users
- ✓ Canadian volunteer experience providing one-on-one technology support to older adults
- ✓ Enterprise Windows Home Lab: Windows Server, Active Directory, Microsoft 365 & Intune
- ✓ ITIL® 4 Foundation and AWS Certified Cloud Practitioner
- ✓ Experience investigating incidents, reproducing issues, and validating fixes with Product and Development teams
- ✓ Created troubleshooting guides, SOPs, and internal knowledge base documentation

PROFESSIONAL SUMMARY

IT Support Specialist with four years of customer-facing experience investigating technical issues, documenting incidents, and collaborating with cross-functional teams to deliver reliable solutions. Currently providing one-on-one technology support to older adults as a Volunteer Tech Mentor with Connected Canadians.

Developed hands-on enterprise IT support skills through a Windows home lab, including Windows Server, Active Directory, Microsoft 365, Microsoft Intune, networking, and endpoint administration. Currently preparing for the CompTIA A+ certification to further strengthen my hardware troubleshooting and endpoint support skills.

CORE TECHNICAL SKILLS

Technical Support

- Windows 10/11 • Microsoft 365 Administration • Technical Troubleshooting • Technical Documentation • End User Support

Identity & Endpoint Management

- Active Directory • Microsoft Intune • Microsoft Entra ID • Device Enrollment • Group Policy

Networking

- TCP/IP • DNS • DHCP • VPN • Remote Desktop (RDP) • Printer Setup • Basic Hardware Installation

Tools

- PowerShell • VMware Workstation Pro • ServiceNow (Basic) • Jira Service Management

PROFESSIONAL EXPERIENCE

Volunteer Tech Mentor

Connected Canadians | Alberta & Remote

July 2026 – Present

- Provide one-on-one technology support to older adults with computers, smartphones, email, account access, device settings, and common digital services.
- Troubleshoot basic device, application, connectivity, and account access issues using a patient, step-by-step approach.
- Explain technical concepts in clear, non-technical language while promoting password security, privacy, and safe online practices.

Product & Operations Analyst

Shenzhen Skywise Technology Co., Ltd. | Shenzhen, China

Aug 2019 – Mar 2023

- Served as the primary liaison between customers and Product, Development, UI Design, and Marketing teams, gathering feedback, validating reported issues, and coordinating resolution.
- Investigated and reproduced website, account access, checkout, and application issues; documented findings and tracked resolution progress.
- Created incident documentation, troubleshooting guides, and knowledge base articles to improve resolution consistency and knowledge sharing.
- Explained technical findings to non-technical users and collaborated with Product and Development teams to reproduce issues, test fixes, and improve the customer experience.

TECHNICAL PROJECTS

Enterprise IT Home Lab

Windows Server 2022 • Active Directory • Microsoft 365 • Microsoft Intune • VMware

Representative Enterprise IT Support Scenarios

Self-directed Technical Project | 2025 – Present

Built and maintained an enterprise-style Windows environment designed to simulate real-world enterprise IT support operations. Developed and validated representative IT support scenarios while creating structured troubleshooting guides, SOPs, and technical documentation.

- Configured Windows Server 2022 and Windows 11 virtual machines, joined client devices to an Active Directory domain, and administered Microsoft 365 and endpoint configurations.
- Diagnosed Windows authentication, Active Directory access, Microsoft 365, MFA, and device-enrollment issues by validating account and authentication settings.
- Troubleshoot DNS, DHCP, VPN, and Group Policy configuration issues and verified successful remediation.
- Used PowerShell to automate routine administration, investigate Windows event logs, and generate system reports.
- Created and published 18+ SOPs, troubleshooting guides, verification checklists, and technical documentation based on repeatable support scenarios.

CERTIFICATIONS

- CompTIA A+ - *In Progress, Expected 2026*
- ITIL® 4 Foundation
- AWS Certified Cloud Practitioner (CLF-C02)
