

RUI (RACHEL) HU

IT Support Specialist | Desktop Support Technician | Active Directory & Microsoft 365

Calgary, AB · 587-836-9310 · hurui.lcy@gmail.com · [Portfolio](#) · [IT Knowledge Base](#) · [Enterprise IT Infrastructure Home Lab](#)

PROFESSIONAL SUMMARY

ITIL 4 Foundation certified IT Support Specialist with hands-on experience administering Windows Server 2022, Active Directory, Group Policy, DNS, DHCP, Microsoft 365, and Entra ID through a structured 17-lab enterprise home environment. Experienced in troubleshooting user accounts, access permissions, workstation connectivity, Microsoft 365 applications, and identity-related issues. Committed to delivering reliable end-user support with clear communication and thorough documentation.

HOME IT LAB EXPERIENCE

Enterprise Windows Infrastructure Home Lab · Windows Server 2022 · Active Directory · Microsoft 365 · VMware 2025 – Present

Designed, deployed, and maintained a multi-machine enterprise-style IT environment to develop practical systems administration and technical support skills.

Server & Domain Administration

- Installed and configured Windows Server 2022 as a Domain Controller; deployed Active Directory Domain Services (AD DS)
- Created and managed Organizational Units (OUs), user accounts, security groups, and group memberships
- Deployed and domain-joined Windows 11 Pro client systems; validated domain authentication and Group Policy application
- Managed user provisioning, password resets, account permissions, and full account lifecycle operations

Identity & Access Management

- Configured Group Policy Objects (GPO) for workstation security, desktop restrictions, and software administration
- Implemented Microsoft 365 and Entra ID scenarios: user licensing, group management, MFA, and Conditional Access
- Troubleshoot authentication failures, account lockouts, permission inheritance issues, and replication errors

Network Services Administration

- Configured DNS server zones and records (forward/reverse lookup, A records, PTR); performed name resolution troubleshooting
- Deployed DHCP services with IP scopes, reservations, and exclusions; diagnosed client connectivity issues

File & Remote Access Management

- Configured shared folders and NTFS permissions; implemented role-based file access using security groups
- Administered Remote Desktop services; troubleshoot remote connectivity and file access permission issues

Automation & Documentation

- Developed PowerShell scripts for bulk user provisioning, AD group management, and routine administrative tasks
- Created step-by-step SOPs, troubleshooting guides, and knowledge base articles for all 17 lab scenarios

TECHNICAL SKILLS

Systems Administration

- Windows Server 2022 · Active Directory Domain Services (AD DS) · Organizational Units (OU) · User & Group Management · Group Policy (GPO) · Remote Desktop Services

Microsoft 365 & Identity Management

- Microsoft 365 (Outlook, Teams, SharePoint, Exchange Online) · Entra ID (Azure AD) · User Provisioning · MFA · Conditional Access · Access Control

Networking

- TCP/IP · DNS · DHCP · VPN Fundamentals · Subnetting · Network Connectivity Troubleshooting

Endpoint Support

- Windows 10/11 · macOS · Software Installation & Configuration · Hardware Troubleshooting · Remote User Support

File & Access Management

- File Server Administration · Shared Folder Management · NTFS Permissions · Security Group-Based Access Control

Virtualization

- VMware Workstation Pro · VM Deployment · Snapshot Management · Multi-Machine Lab Environments

Scripting & Automation

- PowerShell — user provisioning, AD administration, bulk operations

IT Service Management

- ITIL 4 Foundation · Incident Management · Root Cause Analysis (RCA) · SLA Awareness · Escalation Handling · Ticket Documentation

Tools

- Jira Service Management · Git · GitHub · Postman · AWS (EC2, S3, IAM, CloudWatch)

PROFESSIONAL EXPERIENCE

Product & Operations Analyst – Web Platforms · Shenzhen Skywise Technology Co., Ltd. *Aug 2019 – Mar 2023 · Shenzhen, China*

- Served as primary point of contact for customer-reported technical issues, mirroring an L1/L2 support workflow — triaged, reproduced, and escalated incidents to development and QA teams
- Investigated application incidents including login/access failures, UI errors, and API failures; produced structured root cause analysis reports
- Managed the full issue resolution lifecycle: user report → triage → RCA → fix validation → release confirmation and user communication
- Monitored platform health and identified recurring anomalies proactively to avoid SLA breaches
- Maintained detailed issue tracking, troubleshooting documentation, and resolution records
- Translated technical findings into clear communication for non-technical users and stakeholders

TECHNICAL PROJECTS

AI Resume Analyzer Platform · AWS Bedrock · Next.js · Vercel *2025 – Present*

Live: [portfolio-five-rho-81.vercel.app](#) | Role: Technical Support & System Maintenance

- Diagnosed API integration failure caused by a trailing whitespace in a Vercel environment variable — identified via deployment log diff and resolved; documented as a public troubleshooting case study
- Performed RCA on a DOMMatrix runtime error using browser DevTools; traced to a missing polyfill in the Next.js SSR context and implemented fix
- Maintained system stability post-deployment: monitored logs, managed access controls, and handled concurrent incidents in a self-managed ticketing workflow

CERTIFICATIONS

- ITIL® 4 Foundation — Incident Management, SLA, Service Lifecycle
- AWS Certified Cloud Practitioner (CLF-C02)
- AWS Certified AI Practitioner
- Meta Front-End Developer Professional Certificate (Coursera)
- AWS Solutions Architect – Associate (SAA-C03) *(In Progress)*

EDUCATION

Diploma in Interactive Design – Web Design & Development · SAIT (Southern Alberta Institute of Technology) · Calgary, AB *2024 – 2025*

LANGUAGES

- English — Professional Working Proficiency
